Product Description

Product Description

PEI is a polyether imide profile product, ideal for electrical and electronic insulation parts (such as: a variety of semiconductor process parts), as well as a variety of structural parts. These components require high strength and stiffness at high temperatures, so Ultem@PEI 1000 is well suited.

Main features:

- 1. High maximum operating temperature in the air (continuous 170)
- 2. Good resistance to hydrolysis (suitable for repeated steam sterilization)
- 3. High strength and hardness over a wide range of temperatures
- 4. Inherent low flammability during combustion and very low level of smoke diffusion during combustion
- 5. Good dimensional stability
- 6. Physiological inertia (suitable for food contact)
- 7. Excellent resistance to high energy radiation (gamma- and X-ray)
- 8. Excellent electrical insulation and dielectric properties
